## Does the Board Have Your E-Mail Address?

If you are receiving a hard copy of this newsletter, then the Board does not have your e-mail address. If you would like to receive the newsletter electronically, please subscribe at <http://regbdlst.state.tn.us>. You will be prompted to enter your name, e-mail address, registration number and profession.

## Have You Visited the Board Website Lately?

If not, you should. The Board has recently redesigned its website in an effort to make it more user-friendly and informative. You can search for a license, view laws, rules and Board policies, access Board publications and forms, view meeting agendas and minutes, and even renew your registration. Videos of Board meetings are also available for viewing. Visit [www.state.tn.us/commerce/boards/ae](http://www.state.tn.us/commerce/boards/ae) today!

## ENGINEER QUALIFICATIONS CLARIFICATION

Several registrants, after reading the article "Change in Qualifications for Engineer Registration" in the Spring/Summer 2007 issue of Tennessee Design Lines, asked if a master's degree in engineering would be required on January 1, 2008, as the minimum education requirement in order to sit for the Principles and Practice of Engineering exam. The short answer is, "No." The minimum education requirement remains a bachelor's degree in engineering; that portion of the statute (T.C.A. § 62-2-401) did not change. The recent law change will simply allow someone with a master's degree in engineering from an institution with an engineering program approved by the board, but with a bachelor's degree in another field (or with a non-accredited bachelor's degree in engineering), to sit for the Principles and Practice exam (with four years of experience and engineer intern certification).

Also, the recent statutory change does not apply to the Fundamentals of Engineering (FE) exam. T.C.A. § 62-2-402 governs who is eligible to sit for the FE exam, and it still requires a bachelor's degree in engineering approved by the Board. Individuals seeking registration under this new provision must have already taken the FE exam in another jurisdiction.

This should not be confused with the recent National Council of Examiners for Engineering and Surveying (NCEES) Model Law change requiring an additional 30 hours of education beyond the bachelor's degree, which is a separate issue. The Board is still studying that proposal and has no immediate plans to increase educational requirements for engineer applicants in Tennessee. ■

## 2008 SCHEDULE OF BOARD MEETINGS

January 10	Board Meeting/Hearings and Conferences
March 13-14	Board Meeting/Hearings and Conferences
May 22-23	Board Meeting/Hearings and Conferences
July 10-11	Board Meeting/Hearings and Conferences
September 18-19	Board Meeting/Hearings and Conferences
October 15-17	Planning Session/Open Forum/Board Meeting Vanderbilt University, Nashville
November 6-7	Board Meeting/Hearings and Conferences

Unless otherwise indicated, all meetings are held in Nashville, Tennessee, in the Davy Crockett Tower, 500 James Robertson Parkway. Please contact the Board office at 615-741-3221 or 800-256-5758 to verify times and locations, as the meeting schedule is subject to change. Meeting agendas and minutes are available on the Board's website ([www.state.tn.us/commerce/boards/ae](http://www.state.tn.us/commerce/boards/ae)). ■

# UPCOMING RULEMAKING HEARING

At its January 10, 2008 meeting, the Board authorized a rulemaking hearing to hear public comments on the following proposed rule changes:

1. Paragraph (1) of rule 0120-1-.09 [References] is amended by adding the sentence, "No reference will be considered if prepared more than two (2) years prior to the date of application."
2. Paragraph (2) of rule 0120-1-.10 [Education and Experience Requirements—Engineer] is amended to require that, unless otherwise noted, an applicant's engineering experience must be obtained after graduation and prior to the date of application.
3. Rule 0120-1-.17 [Postponement of Examinations—General] is amended by deleting "(six (6) weeks prior to the examination date)" since the date exams are ordered varies and is often earlier than 6 weeks before the exam.
4. Paragraphs (1), (2), and (3) of rule 0120-2-.05 [Conflicts of Interest] are amended by requiring that registrants notify employers or clients of conflicts of interest in writing.
5. The text of paragraph (16) of rule 0120-4-.10 [Professional Conduct] is deleted and replaced with the following text:

- (16) Before accepting a project, a registrant shall reasonably inform the prospective client of:
- (a) The scope and nature of the project;
  - (b) The professional services relating to the interior design that will be performed and the method of compensation for those performed services; and
  - (c) All compensation that the registrant will receive in connection with the project. If the registrant accepts the project, the registrant shall not accept any compensation from any person with whom the registrant deals in connection with the project that has not been fully disclosed to the client in writing prior to acceptance of the project.

The rulemaking hearing notice will be placed on the Board's website ([www.state.tn.us/commerce/boards/ae](http://www.state.tn.us/commerce/boards/ae)) after it has been filed with the Secretary of State. This notice will provide the specific date, time and location of the rulemaking hearing. ■

## REPORT ON NATIONAL COUNCIL ACTIVITIES

By John Cothron, Executive Director

As you may know, the Tennessee Board of Architectural and Engineering Examiners is a member of the following national regulatory councils: the National Council of Architectural Registration Boards (NCARB), the National Council of Examiners for Engineering and Surveying (NCEES), the Council of Landscape Architectural Registration Boards (CLARB), and the National Council for Interior Design Qualification (NCIDQ). The national councils assist member boards primarily by developing uniform national examinations, maintaining and transmitting council records for applicants seeking reciprocal registration, and developing model laws and regulations for boards to use as a reference in developing their own statutes and rules. Each member board plays a role in the development of national standards through participation on various committees of the national councils and attending and voting on resolutions brought before regional and annual meetings of the councils. I have had the privilege of attending the annual meetings of each of the national councils this year, and, in an effort to better communicate council activities to our registrants, I intend to publish annual reports on these meetings in the Board newsletter.

The following issues were discussed at the NCARB Annual Meeting in Denver, Colorado on June 20-23, 2007:

- NCARB is working to ensure that the legs of the three-legged registration stool (education, experience, examination) are even. For this reason, the Architect Registration Examination (ARE) and Intern Development Program (IDP) must be updated and strengthened.
  - ARE 4.0 will be released in July 2008; this version is intended to provide a better assessment of the candidate's knowledge, skills, and abilities.
  - The IDP Committee is recommending that interns be required to report their training activity to NCARB at least every six months to reduce reporting errors. A resolution to this effect will likely be proposed at the 2008 Annual Meeting. At the "Future of IDP" workshop, there was also discussion about establishing a code of conduct and training for supervisors.
- Resolutions passed amending the *Model Regulations* to require that all 12 Professional Development Hours must be acquired in health, safety and welfare subjects and amending the *Handbook for Interns and Architects* and the *Model Law* to allow candidates to sit for the ARE before completion of IDP. In response to this

*cont. next page*

---

## National Council Activities...cont.

---

action, the Board is currently in the process of amending its rules to allow exam candidates to sit for the ARE before completing IDP. Candidates must, however, complete IDP before being approved for registration.

The following issues were discussed at the NCEES Annual Meeting in Philadelphia, Pennsylvania, on August 22-25, 2007:

- The Exam Policy and Procedures Committee recommended that NCEES continue to prepare a list of acceptable calculators each year instead of providing one model for candidate use.
- A task force will re-evaluate computer-based testing next year.
- In response to the 2006 Model Law change requiring a bachelor's degree plus 30 additional credits of acceptable coursework from approved course providers in order to be admitted to the Principles and Practice of Engineering (PE) exam (see the article in the Fall/Winter 2006 edition of *Tennessee Design Lines*), the Uniform Procedures and Legislative Guidelines Committee (UPLG) was charged during 2007 with developing definitions of "acceptable coursework" and "approved course providers" for inclusion in the Model Rules. Although the committee made progress on this charge, it has been decided to continue work on this charge during 2008 prior to proposing changes to the Model Rules. It appears that most, if not all, jurisdictions are waiting for further development of implementation rules prior to proposing changes to the education requirements for registration in their own jurisdictions. At this point, it appears unlikely that any state will implement the requirement for additional education by the January 1, 2015

effective date in the NCEES Model Law. A motion to rescind the requirement for an additional 30 credit hours beyond the bachelor's degree failed by a vote of 40 to 19. However, a resolution urging the Accreditation Board for Engineering and Technology (ABET) to institute a set minimum number of credits that shall be required to graduate with a B.S. in engineering passed 41-24.

- A motion passed that will result in the printing of separate books for depth modules of the Civil, Electrical and Mechanical PE exams as well as the afternoon session of the Fundamentals of Engineering (FE) exam to improve exam security. This is scheduled to go into effect in October 2009 for the Civil PE exam and in April 2010 for the others.
- A motion also passed charging the Examinations for Professional Engineers Committee with modernizing the format of the Structural I and II exams to become a single structural engineering exam with two 8-hour components to be put in use by April 2011.
- Jerry Carter was named the new Executive Director of NCEES.

The following issues were discussed at the CLARB Annual Meeting in Cleveland, Ohio, on September 6-8, 2007:

- After conducting a national search, CLARB has a new Executive Director, Joel Albizo.
- CLARB is establishing a program to approve continuing education providers and courses for landscape architects. Approved providers and courses will eventually be listed on the CLARB website. The American Society of Landscape Architects (ASLA) is working to develop their own continuing education approval system, and it is hoped that CLARB and ASLA will be able to work together to develop one system.

- The CLARB Board of Directors has decided to shut down the C2Ed continuing education program.
- There was some discussion about allowing exam candidates to sit for the Landscape Architect Registration Examination before completion of experience.

The following issues were discussed at the NCIDQ Annual Council of Delegates Meeting in Seattle, Washington, on November 9-10, 2007:

- Six new member jurisdictions were introduced (Alberta, Manitoba, New Brunswick, Nova Scotia, Oklahoma, and Puerto Rico), bringing the total number of member boards to 27.
- NCIDQ is working to develop an alternate education review process as a service to member boards to determine educational equivalency to a Council for Interior Design Accreditation (CIDA, formerly FIDER) accredited degree.
- Following a lengthy discussion about whether NCIDQ should offer a certificate simply confirming that an individual has passed the NCIDQ exam or certification that must be renewed by showing ongoing competence, a motion to move forward with certification failed.
- The Education Task Force recommended the elimination of the 40 semester / 60 quarter hour educational route for eligibility to sit for the NCIDQ exam.
- NCIDQ is working to strengthen the Interior Design Experience Program (IDEP) based on an updated "Analysis of the Profession" report, and they are finalizing a process that allows IDEP participants to record information online.
- Beginning in 2010, CIDA will no longer re-accredit programs of 40 semester / 60 quarter hours. CIDA will only accredit programs that lead to a bachelor's degree or higher. ■

## - ANNOUNCEMENTS -

David M. Schuermann, AIA (Memphis, Tennessee) was recently reappointed to serve as an architect member of the Board representing West Tennessee; he will serve until June 30, 2011.

Dennis Henderson, P.E. (Jackson, Tennessee) was recently reappointed to serve as an associate engineer member of the Board representing West Tennessee; he will serve until June 30, 2011.

Brenda T. Wood (Knoxville, Tennessee) was recently appointed to serve as the Board's public member, replacing Sharon Chesney Byrd. Ms. Wood will serve until June 30, 2011.

The Tennessee Department of Environment and Conservation, in partnership with the Kentucky Department of Environmental Protection, is hosting a conference on "green" development and water quality protection. The conference, entitled, "Green Development: Good for Water and the Bottom Line," will take place at the Sheraton Music City Hotel in Nashville on February 26-28, 2008. The primary goals of the conference will be to:

- (1) Inform city/county officials of the benefits of green development and the codes/regulations that can be implemented to encourage green development in their communities; and
- (2) Promote dialogue and exchange among developers, architects, contractors, and state and local officials on the aspects of green development and its contribution to the efficient use and quality of our waters.

For more information, visit the conference website at <http://www.outreach.utk.edu/GreenDevelopment/>. ■

## NEW BOARD POLICY

The Board adopted the following policy at its October 19, 2007, meeting:

### USE OF TITLE IF REGISTERED IN OTHER JURISDICTIONS

Tennessee Code Annotated §§ 62-2-102(a) and 62-2-103 prohibit individuals who are not registered to practice architecture, engineering or landscape architecture in this state from making public use of the title "architect," "engineer" or "landscape architect," or any appellation thereof which gives or is designed to give the impression that the person using same is an architect, engineer or landscape architect in Tennessee.

The Board has determined that individuals who are not registered in Tennessee, but who hold a like unexpired certificate of qualification or registration in another state, territory or possession of the United States, or another country, may use the title "architect," "engineer" or "landscape architect," provided that the jurisdiction(s) in which they are registered is/are written or printed after the title so as not to mislead the public regarding their credentials. However, these individuals are cautioned that they must become registered in Tennessee before offering architectural, engineering or landscape architectural services to the public. ■

## NCARB LAUNCHES ONLINE APPLICATION FOR NCARB RECORD

The process to start an NCARB Record just got easier. Interns and architects can now fill out the Application for an NCARB Record to pursue Certification or to begin the Intern Development Program (IDP) online. The new online application will cut the time it takes to establish an NCARB Record down to one week or less. Submitting a paper application is a four week process.

Here's how it works:

- **Step one:** Visit the NCARB web site ([www.ncarb.org](http://www.ncarb.org)) and click on the "Start your NCARB Record online" link.
- **Step two:** Click under "New Users" and then fill out the necessary information pertaining to your personal information, education history, and work experience.
- **Step three:** Review for accuracy. Errors will delay your processing time.
- **Step four:** Choose your form of payment; credit card or e-check. You will have a chance to review your payment information before it is submitted.
- **Step five:** Hit submit and check your e-mail. You will receive two e-mails. The first will let you know your payment went through and the second will assign you an NCARB Record number.
- **Step six:** Log into "My NCARB Record" and download the remaining forms needed to complete your record, fill them out, and then send them to the appropriate school or reference. When they are received by NCARB your Record will be updated online in "My NCARB Record."

If you cannot fill out the entire application in one sitting, no problem! You can save the information you have already entered and come back to it at your convenience.

The electronic version of the Application for an NCARB Record is the first step in changing how NCARB processes and maintains Records for interns and architects. NCARB is already hard at work preparing other forms so they may be completed online to further cut down on process and evaluation times. ■

# Disciplinary Actions Taken by the Board

## INFORMAL CONFERENCE:

*The Board held the following informal conference on September 20, 2007, regarding the following issues:*

**ALLEGATION:** A registered engineer sealed all phases of the plans for a build-out of an existing building to be occupied by the State. The engineer stated that he very rarely seals architectural drawings, and the floor plan was provided by the State agency. The owner eventually abandoned the project and the engineer's plans were not used.

**DECISION:** Letter of Warning regarding practicing within one's areas of competence.

## FORMAL ACTION:

Wendy D. Albano, R.L.A. #677  
Durham, North Carolina

**VIOLATION:** Misrepresented the number of professional development hours (PDH's) earned during the preceding renewal period. Tennessee Code Annotated § 62-2-308(a)(1)(B).

**PENALTY:** \$250 civil penalty.

**FINAL ORDER:** September 20, 2007 ■

## DID YOU KNOW?

The National Council of Architectural Registration Boards (NCARB) has released a new continuing education monograph, entitled *Security Planning and Design*. This monograph presents concepts, principles, and processes for incorporating enhanced security into the design of new and existing buildings. Registrants who successfully complete the accompanying quiz will earn 12 Professional Development Hours in health, safety, and welfare. Also, NCARB has released its first "mini-monograph," entitled *The Hidden Risks of Green Buildings*. The purpose of the mini-monographs is to provide an efficient and economical way to earn one or two PDH's in health, safety and welfare. The articles will appear in each issue of NCARB's free publication, *Direct Connection*, and the quiz can be paid for and taken online. Visit NCARB's website ([www.ncarb.org](http://www.ncarb.org)) for more information.

The National Council for Interior Design Qualification (NCIDQ) recently published a guide for supervisors and mentors in the Interior Design Experience Program (IDEP). The *IDEP Guide for Supervisors and Mentors* briefly explains the program and how it works. IDEP is a monitored, documented experience program administered by NCIDQ for entry-level interior designers. IDEP is currently optional in Tennessee, but it is strongly recommended as a structured, comprehensive method for completing entry-level work experience. The guide may be downloaded at the NCIDQ website ([www.ncidq.org](http://www.ncidq.org)) ■

## IN MEMORIAM

*The Board and Staff wish to extend our sympathies to the families and friends of these individuals who have honored their professions:*

Elizabeth (Betty) A. Smith, who served as the Board's director from 1975 to 1995, passed away on January 4, 2007. During her time as director, Ms. Smith served on several NCEES committees, and the Board issued a resolution commending her for her distinguished service to the State of Tennessee on January 18, 1996.

John G. Love, II, the Landscape Architect member of the Board, passed away suddenly of natural causes on January 25, 2008. Mr. Love was appointed to the Board on October 11, 2004, and was to serve until June 30, 2008. He served as chair of the Board from July 1, 2006, to June 30, 2007. He was a great asset to the Board, and will be sorely missed.

## NEW RULES TAKE EFFECT

At its September 20, 2007, rulemaking hearing, the Board approved two rule changes, which will take effect on March 1, 2008. Rule 0120-1-.10 was amended to define approved master's degree programs in engineering, and rule 0120-1-.11 was amended to allow

architect exam applicants to sit for the Architect Registration Exam before completing the Intern Development Program. The complete text of the rules is available on the Board's website. ■

# Information On Examinations

The Board would appreciate your sharing information about these professional examinations with interns in your office.

## ARCHITECTURE

Future information about the ARE and free practice software are available at the National Council of Architectural Registration Boards' (NCARB's) web site: [www.ncarb.org](http://www.ncarb.org). NCARB will launch ARE 4.0 in July 2008. Candidates testing under ARE 3.1 have until June 2009 to complete ARE 3.1 before they are transitioned to the updated exam. Free ARE 4.0 study guides will be available beginning in January 2008.

### Exam Results (8/10/07-12/14/07)

	Total	Pass
Bldg. Planning	15	11
Bldg. Technology	17	11
Constr. Doc. & Services	7	5
Gen. Structures	15	13
Lateral Forces	12	8
Mat. & Meth.	6	6
Mech. & Elec.	22	12
Pre-Design	13	10
Site Planning	15	8

## ENGINEERING

Beginning in October 2003, the National Council of Examiners for Engineering and Surveying (NCEES) assumed responsibility for administering and proctoring the engineering examinations in Tennessee.

### • Fundamentals of Engineering Examination—

Application Deadlines:

	Seniors*	Non-seniors**
Spring Exam	February 1	January 1
Fall Exam	September 1	August 1

\*Engineering students with senior status in the engineering curriculum.

\*\*Those who have already been awarded an undergraduate degree in engineering.

The FE exam is currently administered in Chattanooga, Cookeville, Franklin, Knoxville, Martin, and Memphis on:

April 12, 2008  
October 25, 2008

### • Principles and Practice of Engineering Examinations—

The application deadline for new

applicants for the spring Principles and Practice of Engineering (P&P) exam is December 1. The fall deadline is June 15. Exam applicants must have the required years of experience prior to filing the application. New exam applicants must submit all required supporting documentation by January 1 for the spring exam and by July 15 for the fall exam to ensure that their applications are processed prior to the exam-scheduling deadline. The exam will be given in Franklin, Knoxville, and Memphis on:

April 11, 2008  
October 24, 2008

To facilitate scheduling of the P&P exams, retake requests and fees should be received by the Board office by February 1 for the spring exam and September 1 for the fall exam. Registrants wishing to take other exam disciplines must submit an application to add an exam discipline (available at the Board's website) with the appropriate exam fee by January 1 for the spring exam and August 1 for the fall exam. The examination fee is currently \$215, and the Structural II exam fee is \$485. The examination fee will increase to \$245, and the Structural II exam fee will increase to \$735, beginning with the October 2008 exam administration. Those wishing to take the Structural II exam must already be registered either by taking the Civil or Structural I exams as the basis for registration.

### Exam Results (October 2007)

	Total	Pass
FE	349	201
PE	216	112

For information regarding exam study materials, calculators permitted in the examination room, and exam specifications please visit the NCEES website ([www.ncees.org](http://www.ncees.org)). The 8th edition of the FE Supplied-Reference Handbook will be used beginning with the April 2008 exam administration. Also, effective with the April 2008 administration, new specifications will be used for the Civil Engineering and Naval Architecture and Marine Engineering exams, and the design standards will

change for the Structural I and Structural II exams and the Civil—Structural and Civil—Transportation modules.

## LANDSCAPE ARCHITECTURE

The multiple-choice sections of the Landscape Architect Registration Examination (LARE)—Sections A, B and D—are now computerized and are administered separately from the graphic portions of the examination by the Council of Landscape Architectural Registration Boards (CLARB). In order to take the multiple-choice sections of the examination, exam candidates must register directly with CLARB at [www.clarb.org](http://www.clarb.org). Tennessee candidates are required to indicate that they have been approved to sit for the examination by the Tennessee Board when registering for the examination. Candidates may take the examination at any of the approved CLARB testing centers, and examination fees (scoring and administration fees) are paid at the testing center. Additional information regarding the computerized sections, including current fees and exam dates, is available at CLARB's website.

The graphic portions of the examination—Sections C and E—will continue to be administered in Nashville, Tennessee by the Tennessee Board with examination fees paid directly to the Board. The dates for the administration of the graphic sections of the LARE are as follows:

June 9-10, 2008  
December 8-9, 2008

The application deadline for new applicants is January 15 of each year.

The exam fees for the graphic portions are as follows:

	Jun. 08	Dec. 08
Section C	\$260	\$270
Section E	\$260	\$270

### Exam Results (6/07)

	Total	Pass
Section C	6	5
Section E	6	1

## Examinations ...cont.

### INTERIOR DESIGN

The Interior Design Qualification exam will be given on:

April 4-5, 2008  
October 3-4, 2008

To obtain an application for the exam, call the National Council for Interior Design Qualification (NCIDQ) at 202-721-0220, or visit [www.ncidq.org](http://www.ncidq.org). The regular application deadline for the spring exam is December 10 for first-time applicants; the regular deadline for the fall exam is June 10.

NCIDQ Exam October 2007  
Pass Rates

#### Section I

(multiple-choice)—68%

#### Section II

(multiple-choice)—64%

#### Section III

(practicum)—70%

### NEW REGISTRANTS

The Board and staff congratulate the following registrants who passed their respective professional examinations and were registered between January 1, 2007, and June 30, 2007:

#### ARCHITECTS

(Architect Registration Exam)

Gregory Lynn Armour  
Brian Scott Dell  
Ginger A. French  
Charles Earl Gore, Jr.  
David Ogden Hefley  
Tami Cherilyn Kump  
Benjamin Matthew McCullough  
Samuel R. Moser  
Matthew Paul Nitch  
John Tom Payne  
Amanda H. Whitaker  
Brandon Lynn Young
